

## FACT SHEET

We built The Woodlands specifically for birders, but it proved so popular that we opened it to those wanting that special wilderness feeling without sacrificing comfort and luxury.

Pitched in a grassy, wooded area the three large Meru tents have solid wall en-suite bathroom and wardrobe/dressing room to the rear and a private terrace area to the front.

The central Woodlands lounge has fans, air conditioning, lounge seating and tables.

A butler/groundsman is on hand 24/7.

**The restaurant, pool and sun decks are a 200m walk down sandy paths to the lodge. The Woodlands is available to book for exclusive use – it pairs very well with the Farmhouse for larger groups.**

### IN THE TENTS:
